Hemang Doshi Academy

Pass the CISA Exam with Confidence

Prepare for success with our expert-led CISA prep training, designed to help you clear the exam on your first attempt. This live training program from Hemang Doshi Academy delivers practical insights, scenario-based learning, and full alignment with ISACA's latest CISA Review Manual—empowering you to lead confidently in IS auditing and risk management.

Course Overview

The Certified Information Systems Auditor (CISA) certification by ISACA is a globally recognized credential that validates your expertise in auditing, assessing, and securing IT environments. Our live training covers all five official CISA domains:

- Information Systems Auditing Process
- Governance and Management of IT
- Information Systems Acquisition, Development, and Implementation
- Information Systems Operations and Business Resilience
- Protection of Information Assets

This course blends theoretical clarity with practical case studies, preparing you not just for the certification, but for real-world audit roles.
